EDUCATION

Barcelona School of Economics

Master Program in Economics

Relevant courses: Macroeconomics, Econometrics, Time-Series, Forecasting, Nowcasting.

Degree awarded by Universitat Pompeu Fabra and Universitat Autònoma de Barcelona

Topic of the thesis: The Social Fallout of Sovereign Defaults: Evidence from Latin America.

Thesis Advisors: Isaac Bailey Ph.D. and Victoria Vanasco Ph.D.

Barcelona, Spain

09/2024– 08/2025

Universidad San Francisco de Quito

Bachelor of Science in Economics

Relevant courses: Macroeconomics, Econometrics and Computational Economics.

Topic of the thesis: The Cleansing Effect in Emerging Markets: Evidence from Ecuador.

Thesis Advisor: Professor Carlos Uribe, Ph.D.

Quito, Ecuador

08/2017– 05/2021

PROFESSIONAL EXPERIENCE

Food and Agriculture Organization of the United Nations (FAO)

Economist Intern for the Agrifood Economics and Policy (ESA) Division

- Collect secondary data from national and international databases, literature and other sources to compute agricultural policy monitoring indicators for AgIncentives countries.

- Clean and aggregate data following established MAFAP methodology for policy monitoring across multiple countries and products.

- Develop detailed documentation of data sources and metadata for policy monitoring indicators, ensuring traceability and reproducibility.

- Support improvement of data management systems and workflows within the PRIME team.

Rome, Italy

02/2026 – 01/2027

Inter-American Development Bank (IDB)

Research Assistant for Ecuador's Economics Senior Specialist

- Discrimination in urban South America markets: Led econometric analysis to quantify discrimination in labor and real estate markets across urban South America using field experiments.

- Bunching: Developed and estimated a structural model with Simulated Method of Moments (SMM) to analyze taxpayer behavior near income thresholds in Ecuador's tax system, supervised by Prof. Juan Pantano.

- Emerging Markets Bond Index and Sovereign Default: Implemented synthetic control analysis to estimate the long-term impact of Ecuador's 2008 sovereign default on EMBI spreads, assessing sovereign risk dynamics.

Quito, Ecuador

11/2022–12/2024

Universidad San Francisco de Quito (USFQ)

Research and Teaching Assistant for Prof. Carlos Uribe Ph.D.

- Collaborated in designing and developing R scripts implementing Factor Augmented Vector Autoregression (FAVAR) models for inflation forecasting, as part of an IDB consultancy led by Prof. Carlos Uribe, Ph.D.

- Programmed functions to estimate the output gap using multiple methodologies tailored for emerging markets, supporting the IDB consultancy under Prof. Uribe's supervision.

- Facilitated academic activities including grading, problem set creation, and exam development for Intermediate Macroeconomics, Computational Economics, and Undergraduate Thesis Seminar.

Quito, Ecuador

06/2020– 10/2022

Neo-Plan Cia. Ltda

Research Assistant

- Contributed to a feasibility study evaluating the economic, logistical, and regulatory aspects of establishing a dry port extension for Manta's port.

Quito, Ecuador

11/2020– 11/2021

LANGUAGES & TECHNICAL SKILLS

- Language skills: Spanish (Native), English (C1, TOEFL), French (Intermediate), Portuguese (Basic).
- Technical skills: R (Advanced), Stata (Advanced), LaTeX (Advanced), Python (Intermediate), MATLAB (Intermediate), Julia (Intermediate), Microsoft Excel (Intermediate), SQL (Beginner), PySpark (Beginner).
- Hobbies and interests: Brazilian Jiu Jitsu, Cooking, Trekking, Music.

PUBLICATIONS

- ["Nudging the agents: Does it reduce discrimination against migrants in the house rental market?"](#) With W. Zanon, L. Díaz, E. Díaz, and P. Acevedo. IDB WORKING PAPER No. IDB-WP-1517, November 2023.
